## EDUCATION

### Bachelors of Science, Computer Information Systems
Devry University

*Courses*
- Completed coursework related to obtaining degree.

## WORK EXPERIENCE

### Over The Road Truck Driver
Prime Inc.

*04/2020 - 06/2023*                    *Salt Lake City, UT*

*Achievements/Tasks*
- Maintained a 100% punctual delivery record, earning company-wide recognition and sustained customer loyalty.
- Acquired strong adaptability skills due to the unpredictable nature of over-the-road truck driving.

### Assistant Manager
Extra Space Storage

*03/2018 - 02/2019*                    *Atlanta, GA*

*Achievements/Tasks*
- Contributed to the management of a profitable store, consistently exceeding monthly revenue targets by over 15%.
- Oversaw 200+ customer relationships and secured 50+ positive Google reviews to further drive business growth.

### Store Manager
CVS Health

*01/2015 - 03/2018*                    *Decatur, GA*

*Achievements/Tasks*
- Supervised employees by coaching, training and development, promoting 3 cashiers to supervisors within 1 year.
- Reduced inventory shrink levels in a high-theft store from over 5% to less than 2% within first year of acquiring store.
- Consistently surpassed quarterly sales targets by exceeding them by over 3%.

## SKILLS

HTML 5 · CSS 3 · Python · ReactJS · JavaScript · TypeScript · PostgreSQL · Git · Responsive Web Design · NodeJS · REST

## PROJECTS

### TrekTracker - Trail Finder Web Application (07/2023 - 10/2023) ↗
- Developed a dynamic biking and hiking trail application using React, NodeJS and TypeScript allowing registered users to discover, bookmark and annotate trails across all 50 states.
- Integrated Google Authentication, Firestore and Storage to manage user registration, trail data and image uploads.
- Efficiently merged data from TrailAPI, OpenWeatherMap, and Google Maps API, providing users with an interactive display of trails, real-time weather conditions, and a map pinpointing trail locations.

### Meme Generator - React Web Application (10/2023 - 11/2023) ↗
- Implemented a user-friendly interface that seamlessly integrates with an image API to fetch and display a curated collection of the top 100 popular meme images, enhancing user engagement.
- Enabled users to personalize memes by adding their own text, offering a unique platform for creativity and humor.
- Integrated a flexible light and dark mode feature, catering to user preferences for a comfortable viewing experience.

## CERTIFICATES

### Front End Developer Career Path Certificate of Completion (10/2023 - 11/2023) ↗
*Graduated from an intensive 12-module bootcamp, dedicating over 70 hours to mastering advanced front-end development skills including HTML, CSS, JavaScript and React.*

### Full Stack Software Engineering Certificate of Completion (07/2023 - 10/2023) ↗
*Successfully completed a comprehensive 10-week software engineering bootcamp, acquiring foundational and advanced knowledge in key technologies including HTML, CSS, SQL databases, Flask, Python, JavaScript, TypeScript, and React.*
